At a glance

The KABE Imperial 740 TDL is the flagship of the Swedish premium brand KABE: a fully winter-proof twin-axle caravan with single beds at the rear, a spacious washroom with separate shower cubicle (TDL = toilet/shower lengthwise) and a large front lounge. This caravan was configured to the owner's own specification as a new vehicle at KABE dealer Münk (Sachsenheim, Germany) in November 2020 and delivered in August 2021. It has had one owner since, has been used privately only, never rented out, and regularly serviced by the KABE dealer.

The specification goes well beyond the already generous Imperial standard: a four-unit motor mover, hydraulic self-levelling jacks, a Cinderella incineration toilet, air conditioning, Alde hot-water central heating with underfloor heating, plus a retrofitted Büttner off-grid system with solar panels, lithium battery and a 1,700 W inverter.

WHY THIS CARAVAN

- **All-season:** 36 mm Ecoprim insulation, Alde 3020 HE hot-water heating with 2 zones and underfloor heating, heated shoe locker, drying cabinet, VarioVent ventilation
- **Off-grid:** Büttner solar system, 120 Ah LiFePO4 lithium battery, 1,700 W inverter, battery computer – coffee machine and more without hook-up
- **Comfort without compromise:** Cinderella incineration toilet (no cassette to empty), air conditioning, microwave, oven with grill, induction and gas hob, 177 l fridge
- **Easy handling:** Truma Mover XT4 (4 drive units), E&P levelling jacks, electric step, AL-KO ATC trailer control, 100 km/h approval
- **Freshly inspected:** MOT 07/2026 with no defects, gas test G607 07/2026, KABE annual service with damp test 07/2026

NEW OR RENEWED

- **Awning Thule Omnistor TO 9200, 5.5 × 3 m (white case, Mystic Grey fabric)** – fitted as a new part by KABE dealer Münk in March 2022; used only a few times since, fabric and mechanism in as-new condition
- Levelling jack (E&P) renewed during the 2024 service
- Invoice for the new awning (03/2022) available
- Annual KABE service with damp test, most recently 31 July 2026

AVAILABLE SEPARATELY

Inflatable awning Dometic Rally Air Pro 390 S (390 × 250 cm) with carpet, footprint, hanging rail and packing pads – bought 07/2024, sold separately. Details on page 7.

DOCUMENTS

German registration documents (parts I and II), EC Certificate of Conformity (CoC), KABE certificate for 100 km/h approval, purchase contract and invoice for the new vehicle, all workshop and accessory invoices, MOT report, gas test certificate, complete operating manuals for all appliances.
